

EVERARD LOOKS FORWARD SECOND ROUND OF FST

Fiesta SportingTrophy UK

The Pirelli National Rally - Round 2

19 April 2008

The second round of the VK Fiesta Sporting**Trophy** UK series kicks off at the border town of Carlisle this Saturday. The Kielder forest offers up some challenging terrain, which sees the crews competing over more than fifty miles of classic forest tracks.

James Everard and Sam Collis will be heading up north for the shakedown stage on Thursday in preparation for the main event, the Pirelli National Rally. Saturday morning will see the 16 registered FST crews start the notoriously fast and dangerous stages through the Kielder man made forest complex.

After the first round, Everard and Collis are in second place on 25 points and the Used-Garage-Equipment.com team are looking for another good run in round two of the FST in the Kielder forest. Aiming to consolidate his position in the overall standings, Everard will be looking to put last year's experience of this testing event to his advantage.

The top crews in this year's Fiesta Sporting**Trophy** are very closely matched, so it will require a fast clean run to achieve a podium finish in this exciting event. The Used-Garage-Equipment.com team are ready to rock, with Everard and Collis at the helm this weekend.

Looking forward, the crew will be taking the Fiesta to Ireland, to take part in the Rally of the Lakes, Killarney, one of the Irish FST rounds taking place on the 4 May.
